***Are your ladders
NFPA CERTIFIED & SAFE
for use without any legal
recourse to **YOUR** department ?***

According to Chapter 7 of NFPA 1932
ground ladders shall be serviced and
Tested on the following schedule:

Before the ladder is placed into service for the first time

At least annually

At any time a ladder is suspected of being unsafe

After the ladder has been subjected to overloading

After the ladder has been subjected to impact loading or
unusual conditions of use

Whenever the ladder has been exposed or is suspected of
having been exposed to direct flame contact

Whenever the heat sensor label has changed to indicate
heat exposure

After any repairs have been completed, unless the only
repair was replacing the halyard (rope)

If your ladder falls under any of the categories
listed above it may not be safe for use.
